

# The Petroleum Institute

## Application for Graduate Admission

**Application Deadlines:** - 1th of September, 2008 (International students)  
- 1th of November, 2008 (Domestic students)

Please read the following instructions before filling in the application form. Please fill in completely with all requested information: incomplete applications will not be accepted.

1. Please include the following items with the application:
  - a. Two recent passport size photographs
  - b. A photocopy of your passport and resident visa (if applicable)
2. Contact the institution where you completed your undergraduate degree program, and request that they send an official transcript to the address shown on page 2. If possible, include a photocopy of your transcript with the application form to assist the admissions committee with their decision, however formal admission to the post-graduate program will only be granted after receipt of the official transcript.
3. If an applicant is granted admission for a certain semester and fails to register, the application may be reconsidered, upon request, for the subsequent semester only.
4. Applicants that are offered admission to the Master's Program must either submit a 'letter of financial responsibility' from their financial sponsor stating that the sponsor will be responsible for payment of tuition and any applicable fees, or submit an advance payment equal to 50% of the tuition. Final admission to the post-graduate program is contingent on receiving payment or the letter of financial responsibility.
5. All documents presented to complete an application for admission are the property of The Petroleum Institute and will not be returned to the applicant.

Please note that submitting an application does not mean that an applicant is admitted to the Petroleum Institute. Admission is offered in writing to qualified applicants only after an official evaluation of their credentials by the Petroleum Institute.
